SUZOHAPP

CashComplete™

Scalable Cash Processing

Solutions for the Retail Market

You are a...

Department Store

You have a very large store offering a huge assortment of goods across a varity of categories and you offer considerable customer service. Your layout is designed to offer payment at point of purchase across the physical store and the POS network is probably supported by a dedicated cash office based team.

Leisure Retailer

With a high number of live till points distributed across a large location, you operate efficiently whilst coping with seasonal and event based peaks of customers and their related transactions. Your end of day process may not be completed until very late in the day. Speed of process is important to allow you to release staff at the end of a shift.

Challenges

- Issuing Floats to Till Point
- Accurate Processing & Reconciliation
- Tills Spread Throughout of Premises
- High Volumes of Cash
- Shifts, Costs of Office & Staff
- CIT Collection & Delivery Time Requirements

Discount Store

Offering an extensive assortment of merchandise at affordable and cut-rate prices, you have a number of till points and have a need to keep costs down whilst providing a good level of customer service.

Supermarket

You have a large footprint with opening times that can be anything up to 24 hours a day, seven days a week. You have a large number of till points, which need cash support for floats and change throughout the day. You may have a dedicated cash office for processing and reconciliation.

Challenges

- Creating Till Floats
- Change Deliveries & CIP Pick Up
- Cash Processing & Reconcilliation
- Till & Staff Flexibility in Peak Trading
- Change Requirements

You are a...

Convenience Store

You are found in a residential area, providing merchandise with a speedy checkout and service. You operate extended hours,possibly restocking daily. Staffing is kept to a minimum where possible and cash processes are usually part of the store manager's role.

Fast Food

You may have a limited product range but have multiple tills running on shifts over a 24 hour period. Handling high volumes of cash transactions, you will focus on keeping internal sots down and need to protect against shrinkage and loss.

Challenges

High Volumes of Bank Notes

Change Deliveries & CIT Pick up

Cash Processing & Reconcillation

Security of Cash

Loss Prevention & Audit

Food Store - Baker, Deli, Butcher

A specialist in your area, with a small footprint and a limited number of till points. Customer service is paramount and it is likely that a lot of your transaction will be cash based.

Specialty Store

You give attention to a particular category, product type or brand, whether your specialty is books or games through to fashion or clothing. Whilst you see large amounts of card based payments, the turnover at peak times and average transaction value means you will need to manage volumes of bank notes safely and effectively.

Challenges

Checking Cash /Floats

Time spent Counting & Sorting

Counterfeit Bank Notes

Security of Cash

High Volumes of Bank Notes

Banking Prossesess

Loss Prevention & Audit

We can help:

Fully automate your cash office

Manually creating large numbers of till floats is time consuming. Automating this process, creating floats containing both notes and coins, saves your business significant amounts of time and money. With the automa-tion of change facilities, till skim / lift processing and remote management capabilities, RCS solutions with bank note options will help you keep a fully functioning cash operation in place regardless of the hours you are open for business, and without a massive investment in staffing. Cash is validated, secured and reconciled quickly, accurately and efficiently in a single auditable system.

RCS
Recycling Cash Solutions

RCS-400 2.2 & SDM-504S

Reduce the cost of cash handling

Using intelligent smart safes, bank note management in store can be simpli-fied significantly, reducing the time your staff takes to balance tills and make up the banking reports. With high security levels built in to ensure that over-night security is maintained when cash is left on site, you reduce the risk of robbery and attack. Reducing the time spent in making up traditional lodge-ments for banking. End of day cash pro-cessing through automated systems reduces the manual back office operation and frees up staff time. With real time online data, on de-mand cash collection can reduce CIT costs.

SDS
Smart Deposit Solutions

SDS-760

Dealing with bank notes, securely & accurately at the point of sale

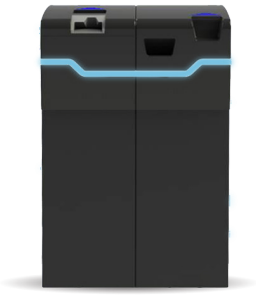

Validate bank notes at the point of sale with the SDS-35. Prevent acceptance of counterfeits and simplify the verification process to securely store notes protecting you and your employees. SDS-35 is the ideal solution for retailers where cash volume, security and handling takes up a significant amount of staff and time.

For a complete transformation of your cash management. The SPS is the fully automated point of sale recycling solution to minimize manual handling in the check-out lanes. It is a closed end-to-end solution, securing the entire cash loop, from the checkout to the Retailer's account, resulting in increased security, reduced costs and more flexibility.

CashComplete™
On-Device

CashComplete™ On-Device Cash Management Software

CashComplete™ On-Device is an open, integrated, user centered software platform that enables organizations to achieve maximum value with their cash management solutions. Increase employee productivity with intuitive work flows that are adapted to your business process. Enforce cash handling business rules at the user, role or revenue center level. Reduce cost by leveraging machines across multiple operating units with multi-tenant capabilities.

Benefits

- Simple to Learn and Train
- Issues Automated Floats/Banks
- Improves In-Store Cash Flow
- Optimizes CIT Deliveries
- Increases Cash Security
- Provides Flexible Connectivity

▸ Improved Work Flows

Easily configure work flows that optimize the transaction time for your cashiers, tellers and supervisors as well as your Cash in Transit (CIT) provider, while ensuring all cash handling rules are enforced, tracked and audited.

▸ Adaptable and Customizable

Need even more capabilities? With an upgrade to Enterprise Edition, organizations have the ability to extend the capabilities of CashComplete™ On-Device by developing plugins, utilizing a well-documented, cross platform SDK. Or utilize the pub/sub API to integrate with third party applications and solutions or leverage the industry standard Java POS for integration with Point of Sale terminals.

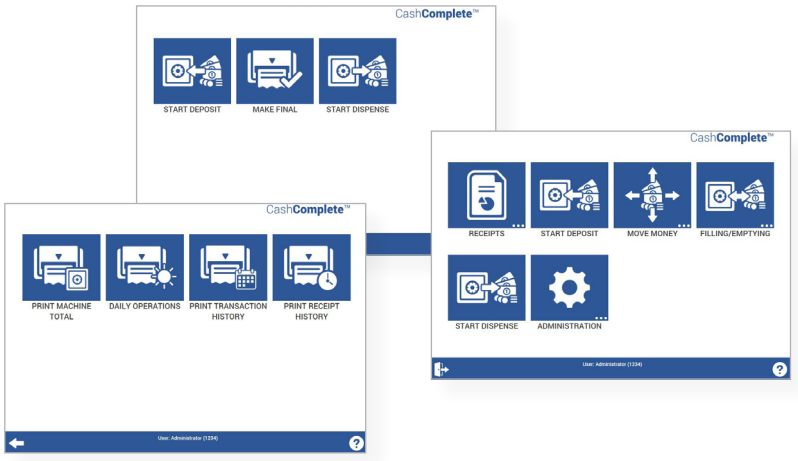

Optimized User Experience

Your employees will rapidly understand CashComplete™ On-Device thanks to the highly intuitive and familiar user interface. This not only reduces the amount of required training, but also increases the level of productivity by reducing overall transaction time.

Compatibility

- All CashComplete™ RCS and SDS Models
- CDS-820j, CDS-830, CDS-9, CDS-9R
- CRC-100
- AST-70XX, SDM-50X, CDS-XXX
- NRI® Pelicano
- Sallen® Electrum
- Azkoyen Cashlogy® POS1000
- Glory® NMD-100
- Glory® CI-100
- MEI
- MW KUAN

CashComplete™
Connect

CashComplete™ Connect Changes The Way You Look At Cash

CashComplete™ Connect is a revolutionary platform which allows you to fully monitor your cash and generate in-depth reports for complete visibility of your cash. This platform is a cloud-based hub that connects you to your business via computer or mobile device for the new generation of advanced cash management. Harness the power of the cloud within a fully secure and PCI-ready environment. CashComplete™ Connect is intuitively designed with a human-centric interface, while maintaining flexibility and powerful connections through an open REST API. The CashComplete™ Connect platform integrates with all CashComplete™ hardware and other compatible machines.

▸ Intelligent Alerting and Monitoring

Monitor the health and status of your devices in real time. Easily configure actionable alerts that can include SMS or emails to specific users. Receive contextualized and detailed notifications for machine actions.

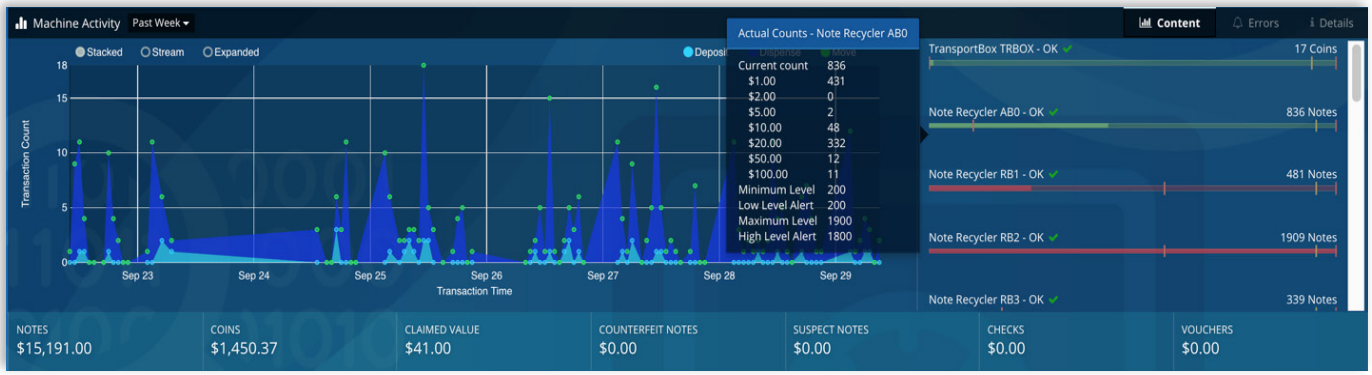

▸ Device Management and Reconciliation

Access aggregated transactional data summarized by user or point of sale across machines and sites. Run custom reports with the powerful built-in query builder and save your custom reports for later use.

▸ Complete Cash Visibility

Know the exact amount of cash in every machine across your enterprise per denomination and location. Make use of data visualization for immediate insight of your business. Customize your reports to quickly access exact data and optimize how you look at cash.
